

InPlus IP819TP

TPMS Diagnostic System

TPMS Deep Diagnostic
30+ Maintenance Functions
Vast Coverage
Customize XTOOL Sensors

InPlus IP819 TP is an automotive TPMS diagnostic system with a 7-inch LCD display, integrated Android OS and highly-customized diagnosis interface.

With integrated TP module, IP819TP provides various TPMS diagnosis functions like sensor check, system diagnostics, XTOOL sensor programming as well as querying OEM sensor info & relearning procedure.

It also supports full OBDII function and automotive diagnostics for all systems for the vehicle, providing the same functionality with IP819.

IP819TP also comes with 31 common service functions like throttle matching, ABS bleed, maintenance light reset, EPB test, SAS, BMS, injector coding, DPF regeneration, and much more. It covers over 98% of all models, works on 4,000+ models within different markets.

Special Function

Specification

Operating System	Android 10	Battery	2500mAh, 7.3V
Processor	4 Core 1.50GHz	Working Voltage	3.6 to 4.2V
Memory	2G RAM, 64G ROM	Power Voltage	5V
Display	7-inch, 1024×600px	Battery Life (Operating)	6 hours
Communication Method	WIFI 2.4/5G	Operating Temperature	-10 to 40°C
Connectivity	USB Type-C	Storage Temperature	-40 to 60°C
Sensors	Gravity Accelerometer, Ambient Light Sensor	Dimension (L×W×H)	249.0×142.0×33.5 mm
Protocol Compatibility	All Standard Protocols (CAN, KWP, VPW...) + CAN FD Supported	Auto Input/Output	Microphone, Speaker
